TOD RESOURCES

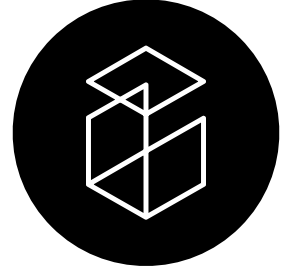

- I have not finished "Beyond Mobility" (<https://its.berkeley.edu/node/13108>). So far, it fits in the current genre of transit and land-use studies that emphasize place instead of mobility. In other word, on being somewhere instead of where you can get to. To my way of thinking, it is in many ways a modern interpretation of Jane Jacob's conception of creating places. (\$26.49 Kindle)
- I highly recommend "Transit Villages in the 21st Century." (http://linkencore.iii.com/iii/encore/record/C__Rb12270076?lang=eng). It is rooted more firmly in the idea that excellent transportation links are needed to create TODs since the TOD itself does not necessarily change travel patterns, but largely capitalizes on the value of proximity to high quality transit.
