Using 1.3MB for files storage

1 - 8 of 8

Explore!

- Take a look at the menu to see what is offered, and if information of interest is already there
- Think about how STAR might use each of these capabilities
- Each subgroup has its own menu areas, including its own files. Calendar is only in the 'main' group.

Or just use email

- main@SacramentoTransitAdvocates.groups.io
- ActionTeam@SacramentoTransitAdvocates.groups.io
- You can create a new topic (subject), or can reply to an existing topic
- Use of tags (#...) is encouraged but not required

Future

- Our use of groups.io is new, and may evolve over time
- groups.io does **not** offer collaborative document editing, where changes are tagged with the date and author, similar to Word track changes
- The free version of groups.io has file storage limits, so only currently relevant documents will be retained there
